

Study Skills

In order to get the best for this course we suggest you practice the following study skills:

- Find a quiet place to study, if you can't get this at home attend a supported learning session or go to your local library
- Give yourself enough time
- Have a pen and paper handy, or use the notes function on the programme. You may want to take notes throughout your learning.
- Don't suffer in silence, if you are having any problems contact a learning mentor or Artemis.
